

Wiki Global Health Disorders and Treatments

Names: _____ Pd: _____

Process—

Students will work in groups of four to complete this project. *Each group member must be an active participant in the assigned responsibilities.* Groups will be assigned a health disorder to research. Collected research information will be communicated by the group through a wiki page. Work will need to be completed in the media center and some work may need to be completed at home. On the assigned date, your group will have 6 minutes to thoroughly present this topic and the wiki page to your classmates. *Each group member must be an active participant in the presentation and complete a self-reflection.*

Group Roles—

Within your group, each student will choose a role for the project:

- wiki page layout
- researcher
- content creator
- citation tracker

If you have three students in your group, the wiki page layout person should also be in charge of citations.

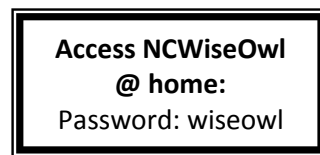

Topics—

Yaws, Schistosomiasis, Typhoid Fever, Yellow Fever, Malaria, Dengue Fever, Leishmaniasis, Crimean Congo Hemorrhagic Fever, Lassa Fever, Morgellons, Cholera, Variant Creutzfeldt-Jakob, African Trypanosomiasis, Onchocerciasis (River Blindness), Shigellosis, Ebola, Foot and Mouth disease, Diphtheria and Tuberculosis

Sources of Information—

A minimum of 4 high-quality research sources. One source must be from the NCWiseOwl database. To access this database follow these directions:

- Go to <http://millbrookmediacenter.weebly.com>
- Scroll down and find NCWiseOwl
- Click on → Professional Zone → Health → Health Professional DB
- Search this database to find information on your topic

Communicate Research Information—

Each group wiki page must do the following:

- Name the health disorder
- Describe the health disorder
- Identify the country(ies) the health disorder may be predominately found in
- Describe the causes for the health disorder
- Report the signs and symptoms of the health disorder
- Explain how the health disorder is diagnosed
- Explain the treatment for the health disorder
- Report the prognosis for people diagnosed with this health disorder
- Include a picture related to one of the findings
- Integrate at least 2 links that lead to additional sources used
- Be creative (i.e. add in a video clip; animation; enhance with appropriate colors, fonts, etc.)
- Give credit to research sources—(bottom portion is highly suggested)
 - include citations on wiki in MLA format for all sources of information
 - include URLs for the images used, videos or any other media used
